

QUALITY, LIGHTNESS AND IMMEDIATE SUPPORT

Call Center staff and customers are highly satisfied. After a smooth test process Neckermann - one of Europe's leading corporations conducting internet-based sales - preferred award winning Jabra GN2100 Duo and Jabra GN8110 USB Adapter for their Call Center in Turkey. The most important selection criteria's were quality and lightness besides the fact, that products are immediately replaced.

Neckermann, one of the leading European corporations conducting internet-based sales, has chosen Jabra GN2100 Duo and Jabra GN8110 USB Adapter as the preferred solution for their - since 2004 based Call Center in Turkey. A major factor for Neckermann's preference of the Jabra products has been quality and lightness besides the fact that the products are immediately replaced with a new one in case of any malfunctioning of the products. A major issue in preventing costly work loss.

Before deciding on the Jabra solution - the Neckermann Turkey Call Center carried out a general research - going through a smooth test process using sample headsets.

The Neckermann Call Center officials noted instantly, that customer representatives responded very positively to the Jabra products and the clients were satisfied with the sound quality throughout this process. Based on these results, Neckermann decided to cooperate with Jabra and among the major suite of products - Neckermann decided to utilize the Jabra GN2100 Duo headsets and Jabra GN8110 USB adapts fulfilling its needs.

In the Neckermann Turkey Call Center, where 374 customer representatives work, 386 Jabra headsets are actively used. Neckermann customer representatives conduct their calls utilizing Jabra GN2100 Duo headsets. During VOIP calls, they use Jabra GN8110 USB adapters which enable smooth audible interviews that are not dependent on the sound card of the PC. Neckermann trainers also use Jabra headset during long telephone calls and telephone tapping situations that get recorded.
