

EFFICIENCY AND COMFORT.

The Jabra GN2200 is the perfect choice for cost-conscious users who want an attractive, lightweight headset with a noise-canceling microphone. The Jabra GN2200 is available in both mono and duo versions.

- Lightweight construction for greater comfort
- Noise-canceling microphone ensures better transmit sound quality
- Comfortable ear cushions provide optimal acoustic coupling
- Choice of mono and duo versions
- Great value

The Jabra GN2200 provides true GN Netcom quality at a value price. DuraFlex-II™ boom arm is as durable as it is attractive. As standard, it is fitted with a high-quality noise canceling microphone that reduces background noise in busy offices and contact centers so your customers can easily hear what is being said. Best of all, the Jabra GN2200 is designed to last for years, even under the most telephone-intensive conditions.

Our feather-light leatherette ear cushions have been ergonomically designed to provide all-day comfort. In addition to our standard mono version, the Jabra GN2200 is also available with duo earpieces so incoming calls are easier to hear in noisy office environments.

With its extended frequency response from 100-4000 Hz, the

Jabra GN2200 provides better sound quality than most other headsets in its class. And like all our high-quality contact center headsets, the Jabra GN2200 is equipped with our PeakStop™ technology, which protects users from harmful sound spikes and other loud noises over 118 db RMS.
