

## Ultralight design. Outstanding IP telephony sound quality.

The Jabra GN2100 USB and Jabra GN2100 IP are part of our award-winning headset series for business and contact center professionals using IP telephony. In fact, many users say that its excellent sound quality gives them the feeling they're having a "face to face" conversation. Moreover, the headset's sleek profile and lightweight, ergonomic design provide a unique combination of style and comfort.

- Excellent Hi-Fi IP telephony (80 – 15,000 Hz)
- Hardwired USB for PC-based IP telephony with Jabra GN2100 USB
- Exclusive lightweight design
- Award-winning headset design
- Noise-canceling microphone for the noisy environments

Providing the ultimate in Hi-Fi stereo sound, the Jabra GN2100 USB is a 100% plug-and-play, Microsoft Windows<sup>®</sup> certified headset. It comes complete with in-line sound controls for use with PC-based IP telephony, our outstanding flex boom arm and a noise-canceling microphone which eliminates unnecessary background noises.

Jabra GN2100 Series also features our PeakStop™ technology, which protects users from harmful sound spikes and other loud noises over 118 dB SPL (RMS). And the large, ultra-soft leatherette ear cushions and our popular lightweight headband make it as comfortable to wear as it is safe to use.

The Jabra GN2100 Series is also available in a variant for use with conventional desk telephones.

**FOR WIDEBAND IP TELEPHONY**

<b>Feature</b>	<b>Benefit</b>
Ultra lightweight design	Greater calling comfort throughout the day – a must for busy professionals who spend a lot of time on the phone.
Strong design: <ul style="list-style-type: none"> <li>• Lab tested boom-arm construction</li> <li>• More than 1,000,000 units used worldwide</li> </ul>	High-quality construction ensures long useful lifetime.
Lightweight, ultra-soft leatherette ear cushions	All-day calling comfort, plus improved acoustic coupling so customers are clearly heard the very first time.
High-quality noise-canceling microphone	Noise-canceling technology filters out unwanted background noise so there is less need to isolate users in individual cubicles. Better outbound communication with less “office” noise helps personalize service.
Adjustable flex boom	Sleek and stylish design is as elegant as it is practical.
PeakStop™ technology – max. 118 dB SPL (RMS)* according to UL-60950 standards	Protection against sudden, loud noises coming across the telephone network.
Optimized frequency response: <ul style="list-style-type: none"> <li>• 80 – 15,000 Hz</li> </ul>	Superbly clear audio for both PC-based IP telephony and PC audio applications.
Compatibility	The Jabra GN2100 USB is compatible with: <ul style="list-style-type: none"> <li>• PC/Macintosh</li> <li>• Microsoft Windows®</li> </ul>
