## BLUETOOTH ADAPTER FOR PC BASED IP TELEPHONY

With the Jabra A330 Bluetooth adapter you can connect any Jabra Multiuse headset to your personal computer and use it just as easily and comfortably as with your mobile phone.

The Jabra A330 Bluetooth adapter is compatible with Windows 2000, Windows XP and Windows Vista. It is easy to set up, and you do not need any drivers. Simply plug the adapter into a USB port, start your IP telephony program and you are ready to talk via your Jabra Multiuse headset.

Not only do you benefit from the same perfect call comfort in your office as when you use your Jabra Multiuse headset with your mobile phone. You will also experience great sound through the digital sound enhancement technology, DSP. The Bluetooth range is up to 100 metres depending on your headset, enabling you to walk while you talk and enjoy wireless freedom at work.

The Jabra A330 Bluetooth adapter works with all Jabra Multiuse headsets. So when you upgrade to a new headset you can continue to use the same adapter.

*GN Netcom is a world leader in innovative headset solutions. GN Netcom develops, manufactures and markets its products under the Jabra brand name.*

## FEATURES & BENEFITS

FEATURE	BENEFIT
What is Multiuse?	Multiuse is a range of Jabra headsets from GN Netcom featuring MultiPoint technology that allows simultaneous connection to several Bluetooth enabled devices
What is Bluetooth wireless technology?	Bluetooth wireless technology is a radio technology developed to deliver short-range wireless mobility. Bluetooth technology eliminates wires between devices, such as mobile phones and headsets, and enables communication between devices that are in close proximity to one another. Bluetooth facilitates fast, secure transmissions of both voice and data. More information is available at <a href="http://www.bluetooth.com">www.bluetooth.com</a> or <a href="http://www.bluetooth.org">www.bluetooth.org</a>
