

How to upgrade your Jabra GN2000 OC headset with mute functionality

1. Insert your Jabra GN2000 USB cable to the USB port
2. Download zip-file from the support area on the Jabra GN2000 USB OC product page or simply follow this direct link:
http://www.jabra.com/sites/Jabra/GNImages/Products/GN2000_USB_OC_Mute_8466.zip
3. Run the file "GN2000_USB_OC_mute.exe"
4. Follow the on-screen instructions

The headset will now have the mute function enabled and works by pressing the middle of the volume button. A red light will indicate when mute function is active.
