### What is Bluetooth wireless technology?

Bluetooth wireless technology is a radio technology developed to deliver short-range wireless mobility. Bluetooth technology eliminates wires between devices, such as mobile phones and headsets, and enables communication between devices that are in close proximity to one another. Bluetooth facilitates fast, secure transmissions of both voice and data. More information is available at [www.Bluetooth.com](http://www.Bluetooth.com) or [www.Bluetooth.org](http://www.Bluetooth.org)

<b>Bluetooth compliance</b>	Bluetooth specification v.2.0+EDR
