# BT320s

## LOST IN MUSIC – STILL IN TOUCH.

### LOST IN MUSIC

You are out and about – enjoying some time on your own. You put on your favorite stereo headset, turn on the music and pump up the volume. It drowns out everything, as you get into the rhythm. You can't help grooving to the music, forgetting everything around you. Meanwhile your friends are trying to reach you on the phone. But how can they get through?

### STILL IN TOUCH

With the BT320s there is no need to turn off the volume on your favorite tunes so you can listen out for the phone. This Bluetooth® stereo headset automatically switches from music to phone mode whenever a call comes in. That way you're always free to crank up the sounds, yet stay in touch.

### JABRA DELIVERS

The latest from Jabra, the BT320s is a leading edge, wireless high-performance Bluetooth® stereo headset. It unties you from your mobile phone, music player or other Bluetooth® device, so you can be on the move while listening to music. Yet at same time it keeps you within reach. Once again, Jabra delivers on its promise to constantly develop new products that take freedom, innovation and design to the next level of quality.
