

DISCOVER THE WORLD OF HD SOUND ON THE ROAD

Take a journey into the dimension of high definition audio. The Jabra JOURNEY in-car speakerphone will ensure your conversations are crystal clear with HD Voice and enhanced noise cancellation technology. Built-in motion sensor on the in-car speakerphone turn the system on and off automatically, making it more convenient to use. The Voice Control feature makes it even easier to enjoy hands-free conversations in your car, letting you answer calls just by using your voice.

With Voice Guidance you will get voice updates on connection and battery status. This feature gives you simple pairing instructions the first time you turn your Jabra JOURNEY on. It will connect automatically with your phone, download your phonebook and say the names of the contacts when they call.* A2DP allows you to stream your music, podcasts or GPS from your phone to the speakerphone.

The next time you are on the road, make it more than just a drive with the Jabra JOURNEY.

* Phone dependant

Reasons to choose the Jabra JOURNEY

- HD Voice mic for enhanced noise cancellation
- Use your voice to make and take calls*
- Auto On/Off with built-in motion sensor

Quick Start Guide

CHARGING Jabra JOURNEY

Use the USB cable to connect Jabra JOURNEY to the car charger. It takes approximately 2.5 hours to fully charge the in-car speakerphone.

TURNING Jabra JOURNEY ON AND OFF

You can use an "I/O" switch to turn on (I) and off (O) your in-car speakerphone. Jabra JOURNEY can also turn on and off automatically, if the on/off slider is in the "I" position. It turns off automatically after being 10 min. in a sleeping mode. It turns on automatically by using a motion sensor.

PAIRING Jabra JOURNEY WITH YOUR PHONE

When you turn on your Jabra JOURNEY the first time it will be in pairing mode. The voice announcement will guide you through the pairing process.

USING Jabra JOURNEY

Answer or end a call

- Tap the answer/end button on your in-car speakerphone to answer/end a call
- You can also answer an incoming call by using your voice and saying "Answer" or "Ignore"***

Make a call

- The call will automatically transfer to your in-car speakerphone*. If it does not, please tap the answer/end button on your in-car speakerphone
- You can also use your voice to make a call. Tap the voice button and Jabra JOURNEY will activate "Voice Dial" function on your phone

Voice button*

- You can activate your phone's voice control mode by tapping the voice button when you are not in an active call

Redial last number*

- Double tap the answer/end button when the in-car speakerphone is connected to your phone

Adjust volume level

- Tap the volume up and volume down buttons to adjust the volume level

Mute On/Off

- To mute an active call press the voice button until you hear a special sound indication for mute
- To un-mute an active call press the voice button again

ADDITIONAL FEATURES

Play Music and GPS application from your phone*

You can transfer music, GPS directions or any other type of audio from your phone to Jabra JOURNEY.

Caller ID Announcement*

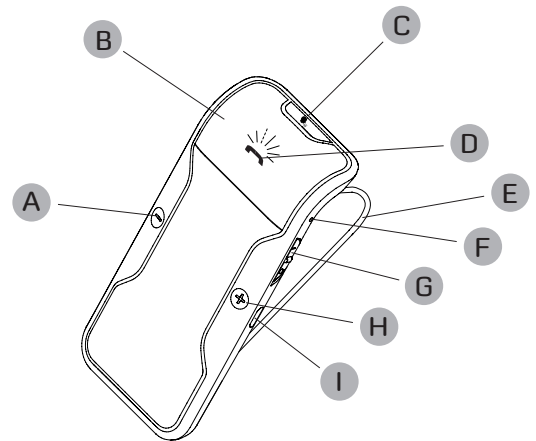

When your phone rings Jabra JOURNEY browses the phone number in your mobile phone and defines the person the phone number belongs to.
