THANK YOU

Thank you for purchasing the Jabra SUPREME Bluetooth® headset. We hope you enjoy it! This instruction manual will get you started and ready to make the most of your headset.

ABOUT YOUR JABRA SUPREME

A  Volume up
   Tap to adjust volume up

B  Micro USB charging connector
   Charge with the Micro USB charger

C  Volume down
   Tap to adjust volume down

D  Answer/end button
   Tap to answer/end call

E  Jabra StatusDisplay™

F  On/Off flip

G  Voice button
   Tap to initiate mobile phone voice functions
WHAT YOUR HEADSET CAN DO

Your Jabra SUPREME lets you do all this:
- Ease of use with Jabra Voice Guidance
- Last number redialing and call back last number
- Voice dialing*
- Three way calling*
- Advanced MultiUse™ - be connected to two active Bluetooth devices at the same time

Specifications:
- Up to 6 hours of talk time and 15 days of standby time
- Rich sound and ambient noise reduction by Active Noise Cancellation
- Noise Blackout™ 3.0 dual microphones technology provides outstanding background noise reduction
- Digital sound enhancements via DSP technology
- Clear wireless streaming of your favorite multimedia: Music, GPS, podcasts, video, etc. (from A2DP enabled devices*)
- Bluetooth technology – Easy pairing with Bluetooth 3.0 EDR & eSCO
- Supported Bluetooth profiles: HFP, HSP, A2DP
- Up to 128-bit encryption
- Rechargeable battery with charging option from AC charger or PC using the supplied USB cable
- Operating range up to 10 meters (approximately)
- Weight 18 grams
- Size: 89.7 mm x 29.9 mm x 21.9 mm

* Phone dependent
GETTING STARTED

Please follow these steps before using the Jabra SUPREME:

1. Charge the Jabra SUPREME using the supplied AC charger and USB cable.
2. Activate Bluetooth® on your phone or device (refer to the manual of your device)
3. Turn your Jabra SUPREME on by flipping open the boom, and pair it with your mobile device by following the voice guidance.

NOTE: Voice Guidance is enabled as the default setting when you turn on your Jabra SUPREME the first time. You can at any time disable by pressing the Voice button while you flip the boom arm to On position. You will hear a tone and SUPREME will no longer talk to you. Repeat the process to enable the voice features again.

CHARGE YOUR JABRA SUPREME

Make sure that your headset is fully charged before you start using it. Use the USB cable to connect Jabra SUPREME to a USB port or use an AC charger. The battery indicator light will Flash Green while charging. When light goes out the charge is complete. A full charge takes approximately two hours. Only use the charger provided in the box – do not use chargers from other devices as this may damage your headset. Also you should not use your supplied SUPREME charger to charge other devices.

NOTE: The lifetime of the battery will be significantly reduced if your device is left uncharged for a long period. We therefore recommend that you recharge your device at least once a month.

WEARING STYLE

The Jabra SUPREME is ready to be worn for right ear wearing, but if you prefer left ear wearing remove the ear hook and turn it and attach it from the opposite side. The ear cushions come in two
different styles to fit any ear. Furthermore you can twist and bend the lower part of the earhook to optimize.

TURNING YOUR HEADSET ON AND OFF
- Flip the boom arm to turn on (open position) or turn off (closed position).
PAIRING IT WITH YOUR PHONE/DEVICE

Bluetooth® Headsets are connected to mobile phones/devices using a procedure called ‘pairing’. By following a few simple steps, a phone/device can be paired with a headset in a matter of seconds.

1. Activate Bluetooth® on your phone/device
2. Turn the Jabra SUPRÊME on
3. The first time you turn the Jabra SUPRÊME on it will automatically enter into pairing mode. The connectivity icon on the Status Display will flash with a blue light and you will be voice guided through the pairing process.

If you have disabled the Voice guidance go to the Bluetooth settings menu on your phone/device and search for new Bluetooth devices. Choose Jabra SUPRÊME. When pairing is complete Status Display will shift from flashing to steady light. You are now ready to start using your Jabra SUPRÊME.

NOTE: If asked for a passkey or pin code use 0000 (four zeros)

PAIR A NEW OR SECOND DEVICE

1. Ensure that the Jabra SUPRÊME is turned on
2. Holding the Answer/end button while flipping the boom arm to On position.
3. If this is your second device you will need to reconnect to the first device afterwards
CONNECTING WITH YOUR PHONE

Pairing is only needed the first time a headset and a phone/device are used together. When the headset and phone/device have been paired once they will automatically reconnect when the headset is on and Bluetooth® is activated on the phone/device.

If the devices are paired, but do not reconnect, tap the Answer/end button.
HOW TO

The Jabra SUPREME is easy to operate. The buttons perform different functions depending on how long you press them.

<table>
<thead>
<tr>
<th>Instruction</th>
<th>Duration of press</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tap</td>
<td>Press briefly</td>
</tr>
<tr>
<td>Double tap</td>
<td>Press briefly two times within 1/2 second</td>
</tr>
<tr>
<td>Press</td>
<td>Approx: 1-3 second</td>
</tr>
<tr>
<td>Long press</td>
<td>Approx: 4-5 seconds</td>
</tr>
<tr>
<td>Extra long press</td>
<td>Approx: 5-10 seconds</td>
</tr>
</tbody>
</table>

**Answer a call**
- Tap the **Answer/End** button

**End a call**
- Tap the **Answer/End** button

**Reject/ignore a call**
- Double tap the **Answer/End** button when the phone rings to reject an incoming call. Depending on your phone settings, the person who called you will either be forwarded to voice mail or hear the busy signal

**Make a call**
- Tap the **Voice** button and you will be starting the mobile phones voice engine
- You can also place a call directly from your phone. If your phone is connected it will automatically transfer the call to your Jabra SUPREME. If the call does not transfer, tap the **Answer/End** button.

**Last number redial**
- Double tap the **Answer/End** button

**Activate Voice dialing**
- Press the **Answer/end** button to activate the phones voice dialing or tap the **Voice** button.
Mute/un-mute microphone
- During a call, tap the **Voice Control** button to mute the microphone. To un-mute, tap the **Voice Control** button again.

Adjust sound and volume
- Tap the **Vol-** or **Vol+** buttons to adjust the volume when on a call or listening to multimedia on your Jabra SUPRÊME.

Three way calling*
- Press the **Answer/end** button to switch to call on hold. Press the Answer/end button to switch back to first call.

Play music*
- If your phone supports A2DP audio streaming then you can transfer music or any other type of audio to the SUPRÊME.

Answer a call while playing music*
- If you have an incoming call while listening to music on the Jabra SUPRÊME the music will pause and you will hear your ringtone. You can then choose to answer or ignore the call. After the call the music will start to play again*.

<td>Announced if a connected phone/device is turned off, goes out of range or has BT disabled while in range and while the speakerphone is still turned on.</td>
</tr>
</tbody>
</table>
“Battery level is low” Announced when the battery level goes below 10%

**ADDITIONAL FEATURES**

**Play music, podcasts and GPS Announcement***

If your phone or device supports A2DP audio streaming you can hear your music or any other audio through your Jabra SUPREME. Simply start playing your music or start your application and the audio will automatically transfer to SUPREME. If your phone rings the audio will mute and you can answer or ignore the call. The audio will resume after the call.*

**Using you Jabra SUPREME with two mobile devices at the same time**

The Jabra SUPREME supports Advanced MultiUse™ and is capable of having two mobile phones (or other Bluetooth® devices) connected at the same time. This will give you the freedom of having only one headset to operate both of your mobile phones/devices.

When you have two active phones/devices connected you will hear “Two devices connected”. In this state the phone paired last will be used for voice dialing. When two phones are connected you can place and answer calls on both and switch between the two. If you are on a call and receive a second call you will be alerted by a tone. You can then:

- Put the first call on hold and accept the incoming call by pressing the **Answer/end** button
- Switch between the two active calls by pressing the **Answer/end** button again
- Tap the **Answer/end** button once to end the first call and accept the new incoming call

Go to jabra.com/SUPrEME and download the latest firmware and additional languages.

**TROUBLESHOOTING & FAQ**

**I hear crackling noises**
- Bluetooth is a radio technology, which means it is sensitive to objects between the headset and the connected device. It is designed for the headset and the connected device to be used within 33 feet (10 meters) of each other, with no major objects in the way (walls, etc.).

**I cannot hear anything in my headset**
- Increase the volume in the headset.
- Ensure that the headset is paired to a device that is playing.
- Make sure your phone is connected to the headset by tapping the **Answer/End** button.

* Phone dependent
I am having pairing problems
- You may have deleted your headset pairing connection in your mobile phone/device. Follow the pairing instruction to pair it again.

I want to reset the pairing list in my headset
- The headset registers a list of up to 7 mobile phones. To clear the pairing list and reset the Jabra SUPRÈME to factory settings you can turn the SUPRÈME on while pressing the VOL+ and Answer/end button for about 6 seconds. The next time you power on the Jabra SUPRÈME it will automatically go into pairing mode.

Will the Jabra SUPRÈME work with other Bluetooth equipment?
- The Jabra SUPRÈME is designed to work with Bluetooth mobile phones. It can also work with other Bluetooth devices that are compliant with Bluetooth version 1.1 or higher and support a headset, hands-free and/or advance audio distribution profile.

I cannot use Reject call, call on hold, Redial or voice dialing
- These features are dependent on the ability of your phone to support a hands-free profile. Even if the handsfree profile is implemented reject call, call hold and voice dialing are optional features which are not supported by all devices. Please consult your device manual for details.

Please note that some features can only be operated from the primary device e.g. voice dial using Jabra SUPRÈME with 2 mobile phones.

TAKING CARE OF YOUR HEADSET

- Always store the Jabra SUPREME with the power off and safely protected.
- Avoid storage at extreme temperatures (above 45°C/113°F – including direct sunlight – or below -10°C/14°F). This can shorten battery life and may affect operation. High temperatures may also degrade performance.
- Do not expose the Jabra SUPREME to rain or other liquids.
1 **Bluetooth** is a radio technology that connects devices, such as mobile phones and headsets, without wires or cords over a short distance (approx. 10 meters/33 feet). Bluetooth is safe to use. It is secure too, so once a connection has been made no-one can listen in and there is no interference from other Bluetooth devices either. Get more information at www.bluetooth.com.

2 **Bluetooth profiles** are the different ways that Bluetooth devices communicate with other devices. Bluetooth phones support the headset profile, the hands-free profile or both. In order to support a certain profile, a phone manufacturer must implement certain mandatory features within the phone’s software.

3 **Pairing** creates a unique and encrypted link between two Bluetooth devices and lets them communicate with each other. Bluetooth devices will not work if the devices have not been paired.

4 **Passkey or PIN** is a code that you enter on your Bluetooth enabled device (e.g. a mobile phone) to pair it with your Jabra SUPREME. This makes your device and the Jabra SUPREME recognize each other and automatically work together.

5 **Standby mode** is when the Jabra SUPREME is passively waiting for a call. When you ‘end’ a call on your mobile phone, the headset goes into standby mode.
