

ELITE 8 ACTIVE GEN 2

Nothing Tougher

The world's toughest earbuds with plug & play smart case¹

NOTHING TOUGHER

The next generation of the world's toughest earbuds¹. Tried and tested under extreme conditions, nothing gets past the Elite 8 Active Gen 2. With unmatched durability and performance, these earbuds are fully sweatproof, waterproof and workout-proof. Even the case is dustproof and splashproof so you won't have to leave it behind. **Tested to military standards, Elite 8 Active Gen 2 are truly the toughest of them all.**

UNSHAKEABLE FIT

Built to withstand maximum movement, these buds are staying put no matter how much you move. With ultimate grip and a secure in-ear fit, the buds stay secure in your ear all day without the need for ear wings. Whether you're running a marathon or just running to catch the bus, the feeling of total locked-in safety remains the same. **These buds will stay with you every step of the way.**

SMART CASE FOR STREAMING ANYWHERE

Introducing the world's first LE Audio smart case, equipped with an advanced chip for seamless audio streaming from any device¹. Simply plug in the case to a treadmill at the gym or your TV at home (using the USB-C/3.5mm cable provided²) to stream the content to your earbuds and enjoy it in spatial sound. **Plug & play to experience epic sound from anywhere.**

LIFELIKE SOUND WITH DOLBY

Add another dimension to your audio experience with spatial sound powered by Dolby Audio, now with improved tuning for even better sound. Instead of experiencing sound directly inside the ears, you'll feel sound as if it's outside your head, making listening on earbuds more lifelike, elevating your music and supercharging your workout. Dolby Audio can be toggled on or off in the free Jabra Sound+ app, so the choice is yours depending on what you're doing. **Lifelike sound that keeps you running to the beat.**

CONTROL THE SOUND AROUND YOU

Stay aware of your surroundings while outdoors with new Natural HearThrough, twice as effective as Elite 8 Active previous generation. Tailored for running, the enhanced wind-noise detection ensures you can hear your surroundings and still hear your music, even in the windiest conditions. When you want to stay in the zone Adaptive Hybrid Active Noise Cancellation blocks out the noise around you. **Choose to zone out or to tune in.**

SMARTWATCH CONNECTIVITY

Don't want your phone weighing you down while you're out beating your personal best? Download your music to your smartwatch³, connect your earbuds, and head out for a phone-free run. Your connection will stay solid and stable no matter what, so you can push yourself to the limit. **Leave your phone at home but take your music with you.**

CLEAR CALLS IN ANY ENVIRONMENT

Keep every call smooth, slick and fully audible even when you're on the move. The 6 microphones smartly distinguish between your background noise and your speaking voice, so you're never competing with the sound around you. Specially designed for windy environments, the wind-protecting mesh and noise cancellation algorithm strengthens your speech and keeps it sharp, ensuring your conversation stays on point and interference-free. **Whatever the conditions, your call will be clear as day.**

HOW TO PAIR

Push the buttons on both earbuds for 3 seconds, then go to the Bluetooth menu of your phone to connect your earbuds, or with Fast Pair, your Android phone will instantly ask to connect to your earbuds if nearby.

POWER ON/OFF

Tap both buttons simultaneously to power off. Press the buttons to power on. See the User Manual for button functionality when using either earbud.

FEATURES

BENEFITS

Audio	Adaptive Hybrid ANC	Enhanced noise cancellation due to wider frequency band to block out more noise
	Spatial Sound	Enhanced EQ tuning for an even more immersive sound experience powered by Dolby Audio
	Natural HearThrough	Hear what's around you for enhanced awareness of your surroundings, even in the windiest environments
	AAC, SBC	Audio codecs for enhanced music quality
	Spotify Tap playback	Instant access to your music
	Customizable EQ	Hear your music your way with the customizable equalizer, available in the Jabra Sound+ app
	6-microphone technology	For crystal clear calls
Connectivity	Bluetooth Multipoint	Stay connected to two devices at the same time
	Bluetooth® 5.3	No audio dropouts or interruptions
	Stable smartwatch connection ³	Leave your phone at home but take your music with you by streaming directly from your watch to your earbuds
	Device Pairing	Pair up to 10 devices
Ease of use	Smart case	Easy plug & play for streaming spatial sound from any device ² (via USB-C/3.5mm connector).
	Use either earbud	Always have one bud ready when the other one is charging
	Rechargeable battery	Up to 8 hours battery in the buds (ANC on), and up to 32 hours with the case
	Wireless charging	Easy, universal power management with both USB-C fast-charging and wireless charging (wireless charger not included)
	Fast charge	5 minutes of charge gets you up to 1 hour of battery
	Fast Pair	Pair to your mobile device in an instant. Works with Android OS 6.0 or higher
	Swift Pair	Pair to your computer or tablet in an instant ⁵ . Works with Windows 10 or higher
Design & comfort	Voice Assistant access	Talk to your preferred voice assistant by pressing the left button (native Phone VA) or just saying "Hey Google" (Google Assistant) to get started.
	MyControls	Configure your button functions with MyControls, available in the Jabra Sound+ app
	Closed earbud design	Designed to achieve a sealed fit that helps with noise isolation
Durability	Jabra ShakeGrip™	Higher friction material that helps the bud stay securely in the ear
	IP68-rated earbuds	Highest IP rating for completely water and dustproof earbuds
	IP54-rated case	Splash and dust resistant
App	MIL-STD-810h	Ultra durable earbuds tested against military standards
	Saltwater-proof	Tested against salt water splashes so a run on the beach or a particularly high impact workout is never a problem.
	2-year warranty	Against failure from dust and water with free Jabra Sound+ app registration
App	Jabra Sound+	Access firmware updates, user manual, Find my Jabra and more

¹ Refer to Jabra.com/claims | ² Supports devices with USB-C or 3.5mm port | ³ Compatible with smartwatches supporting Bluetooth profiles HFP, A2DP and AVRCP | ⁴ Spotify Tap playback / Voice assistant button can be configured in the Jabra Sound+ app | ⁵ Functionality may be limited by PC, operating system and application.
