NOTE: It is important to identify which Jabra Elite Sport model you currently own before purchasing replacements. There are two versions of the Jabra Elite Sport: a 9-hour model and a 13.5-hour model. To determine which model you own, download the Jabra Sport Life app and find the Product ID in the Technical info section. If the product ID is 246F, it is the original Jabra Elite Sport with 9 hours battery. If the product ID is 2479, it is the new black version with 13.5 hours. If the product ID is 2478, it is the lime/grey version with 13.5 hours. Additionally, the different models cannot be used interchangeably (e.g. the lime/grey 13.5-hour earbud with a black 13.5-hour earbud).
2.3 Using a replacement earbud

Before using a replacement earbud it will need to be synced with your current earbud and the charging case.

To sync, place the replacement earbud into the charging case along with you current earbud, and close the lid. The charging case’s LEDs may flash purple to indicate the firmware is being updated. Please wait until the LEDs stop flashing purple before opening the charging case and using the Jabra Sport Elite.

For firmware update information, see Section 7.10.

Please note that if the replacement earbud was the right earbud, you will need to re-pair the Jabra Sport Elite to your smartphone, and then re-update the firmware. See Section 5.1 and Section 7.10.
2.4 Using a replacement charging case

Before using a replacement charging case it will need to be synced with your current earbuds. The charging case should also be charged for 1 hour before placing the earbuds inside it.

To sync, place your current earbuds into the replacement charging case, and close the lid. The charging case’s LEDs may flash purple to indicate the firmware is being updated on the replacement charging case. Please wait until the LEDs stop flashing purple before opening the charging case or using the Jabra Sport Elite.

For firmware update information, see Section 7.10.
3. How to wear

The top of the EarWing should fit tight into the ridge of the ear.
3.1 Changing EarGels

For the optimal audio experience, try each of the different EarGel sizes. The fit should feel tight and secure in your ear.

3.2 Changing EarWings

For the most secure fit during your workout, and for accurate heart rate monitoring, try each of the different EarWing styles.

Remove the current EarWing and pull the new EarWing onto the earbud, as shown. You may have to stretch the EarWing into position.
4. How to charge

The Jabra Elite Sport offers up to 4.5 hours of playtime (depending on the model). With 2 full recharges in the charging case, you can enjoy up to a total of 13.5 hours of on-the-go battery.

4.1 Charging the earbuds

To recharge the earbuds, simply place them in the charging case and close the lid. The LEDs on the front of the charging case will flash red, yellow or green to indicate the earbuds current battery status.

It takes approx. 2 hours to fully recharge the earbuds. If the earbuds are at low battery, 20 minutes in the charging case equals up to 1 hour of playtime.
4.2 Charging the charging case

To power up the charging case, simply plug it into a USB power supply or wall charger. It takes approx. 2 hours to fully power up.

The LED above the USB port will light up red when charging, and green when fully charged. It takes approx 3 hours to fully charge both the earbuds and the charging case together.
4.3 What the LEDs mean

5. How to connect

5.1 Pairing with a smartphone

1. Press and hold the Multi-function button on the right earbud for 3 seconds until you hear the connection instructions. Release the button.
2. Follow the voice-guided connection instructions to connect to your smartphone.
3. You may need to press and hold the Volume down button for 3 seconds on the left earbud to turn it on (only necessary for first time use).
6. Jabra sport life app

The Jabra Sport Life app is a free app that offers:

- VO2 Max testing: gives an accurate measurement of your fitness level
- Heart rate monitoring: track and analyze your cardio performance
- Race Time Predictor: accurately estimates your finish time
- Recovery Advisor: helps detect signs of over-training
- Jabra Elite Sport firmware updating
7. How to use

7.1 Turn earbuds on/off

The earbuds are turned off/on whenever they are placed in the charging case, and the case is closed or opened.

The earbuds can also turned off/on individually by holding down the Multi-function button (right earbud), or the Volume down button (left earbud), until the LED flashes.
7.2 Single earbud use

The right earbud can be used individually for mono playback or calls. For volume and skip track controls, please use your connected smartphone.

When both earbuds are turned on and are within 25cm range, they will automatically relink.

7.3 Calls & music

</tr>
<tr>
<td></td>
<td>Turn on/off the On-the-go updates</td>
</tr>
</tbody>
</table>
7.5 HearThrough

HearThrough utilizes the in-built microphones to enable you to pay attention to your surroundings and engage in conversation without needing to remove the earbuds.

HearThrough settings can be configured using the Jabra Sport Life app.

| Right earbud | HearThrough on/off | Double-tap the Multi-function button when not on a call |

Note: Windy conditions may affect the quality of HearThrough.
7.6 Sidetone

Sidetone is a feature that enables you to hear your own voice when you are on a call. Firmware version 3.8 or higher is required to turn Sidetone on/off.

<table>
<thead>
<tr>
<th>Right earbud</th>
<th>Sidetone</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Sidetone on/off</td>
</tr>
</tbody>
</table>

Press and hold (2 secs) the Multi-function button and the Sports button simultaneously when not on a call.

Sidetone can also be turned on or off using the Jabra Sport Life app.

7.7 Auto power off

When the right earbud is out of range or not connected to your smartphone for 15 mins, or has not been active for 1 hour, it will power itself off to save battery.

When the left earbud has not had a link with the right earbud for 15 mins, it will power itself off to save battery.
7.8 Multiple call handling

The earbuds can accept and handle multiple calls at the same time.

<table>
<thead>
<tr>
<th>Right earbud</th>
<th>Multiple call handling</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>End current call and answer incoming call</td>
</tr>
<tr>
<td></td>
<td>Tap the Multi-function button</td>
</tr>
<tr>
<td></td>
<td>Put current call on hold and answer incoming call</td>
</tr>
<tr>
<td></td>
<td>Press and hold (2 secs) the Multi-function button</td>
</tr>
<tr>
<td></td>
<td>Switch between held call and active call</td>
</tr>
<tr>
<td></td>
<td>Press and hold (2 secs) the Multi-function button</td>
</tr>
<tr>
<td></td>
<td>Reject incoming call, when on a call</td>
</tr>
<tr>
<td></td>
<td>Double-tap the Multi-function button</td>
</tr>
</tbody>
</table>

7.9 Voice guidance and languages

Using the Jabra Sport Life app, the voice guidance can be turned on/off, and the language can be changed.

The following languages are available: English (US), French, German, Japanese, Chinese.
7.10 Update firmware

The Jabra Elite Sport can be updated to the latest firmware version using the Jabra Sport Life app. You will be automatically notified in the app when a firmware update is available, or you can find it under ‘Headphone Settings’ in the ‘Settings’ menu.

When the Jabra Sport Elite is firmware updating, please allow the update to fully complete, which can take up to 15 minutes. It is recommended to wait 10 seconds after the LEDs stop flashing purple before opening the charging case.

7.11 How to reset

Resetting the earbuds clears the list of paired devices. After resetting, it is necessary to re-pair the earbuds to your smartphone.

<table>
<thead>
<tr>
<th>Right earbud</th>
<th>Reset</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Press and hold (5 secs) the <strong>Multi-function</strong> button and the <strong>Sports</strong> button until the LED flashes purple.</td>
</tr>
<tr>
<td>Reset the pairing list</td>
<td></td>
</tr>
</tbody>
</table>

8.1 FAQ

View the FAQs on Jabra.com/elitesport

8.2 How to care for your earbuds

- Always store the earbuds in the charging case and safely protected.
- Avoid storage at extreme temperatures (above 65°C/149°F or below -10°C/14°F). This can shorten battery life and may affect the earbuds.
