

Jabra Engage 50

Engineered to be the world's best professional digital corded headset*

The Jabra Engage 50 headset is designed for softphone environments, with features that combat noise and interruptions to drive customer satisfaction in the contact center.

Digital sound for the clearest calls

A unique, 3-microphone system filters out background noise and breathing sounds, giving callers a superior experience. Stereo sound and super wideband give vibrant, lifelike conversations – with the highest levels of hearing protection for agents.

Reduce interruptions and enhance agents' focus

Multi-color status lights on both earcups ensure interruptions are kept to a minimum. More than just a busylight, the status lights can be customized for specific needs¹. Impressive passive noise cancellation enhances agents' focus.

Live guidance for agents and rich call analytics improve customer experience

The Engage 50 leverages Jabra software³ for a smarter way to overcome noise. With live on-screen microphone guidance for agents, and rich call analytics for the business, the Engage 50 helps deliver better-sounding calls.

Better call control for greater efficiency

The call control unit accessory enables agents to adjust volume levels and mute, speed dial, answer and end calls, and update their status lights at the touch of a button.

Designed for softphone environments

Built for today – ready for tomorrow. Features category-first USB-C for easy connection to PC and mobile devices, and with USB-A connectivity available as an accessory.

At a glance

Jabra Engage 50 corded headset

- 3-microphone system
- Stereo sound and super wideband
- Customizable status lights¹ on both earcups
- Intuitive, stay-flat control unit²

³ Jabra Xpress, Jabra Direct and Jabra SDK

How to connect

PC/Softphone/Mobile devices with USB-C connectivity: Simply plug into the USB-C port on your PC or any mobile device with a USB-C socket that is compatible with voice calls.

Using the Control Unit accessory: Just plug the headset into the control unit, then plug the control unit into the PC. USB-A and USB-C versions of the controller are available.

Using the Extension Cord accessory: Simply plug the headset into the extension cord then plug the extension cord into your PC's USB port. Both USB-A and USB-C versions of the extension cord are available.

How to wear

Jabra Engage 50 headsets have adjustable headbands for all-day comfort. The bendable 300° spin boom arm enables easy adjustment without risk of breakage. Place the microphone 12 mm away from the mouth for optimal positioning.
