### AT A GLANCE: JABRA XPRESS 2.0

#### Flexible and free device management software

Jabra Xpress 2.0 supports all main operating systems (Windows & macOS) for maximal flexibility, and is available cloud based or on-premises. All data generated can be stored in the Cloud or the on-premises solution.

Jabra Xpress is offered free of charge. We have established guidelines for managing information security inspired by ISO/IEC 27001:2022.

#### SOC II Type 1 Compliance

Jabra Xpress adheres to the SOC II Type 1 data protection standard, ensuring robust security measures and compliance.

#### Penetration Testing

Our solution undergoes regular penetration testing to evaluate system security and identify potential vulnerabilities.

#### Monitoring and Response

We perform CVE scans on the application to detect known vulnerabilities.

#### Risk Assessment

The risk assessment process for Jabra Xpress addresses both technical and governance-related risks. Our R&D team conducts threat modeling using the STRIDE Threat Method to ensure comprehensive risk management.
