

## How do I pair my Jabra Elite Sport with a third-party sports app?

To pair with a third-party app such as Endomondo, Runkeeper, Strava, Runtastic, or MapMyFitness, follow these steps:

1. Make sure that your Jabra Elite Sport is already paired with your smartphone.
2. Turn on Bluetooth on your smartphone.
3. Turn on your Jabra Elite Sport.
4. Wait until Jabra Elite Sport is connected.
5. In the third-party app, add Jabra Elite Sport as a heart rate monitor. Select Bluetooth low energy if you are prompted. Refer to the user manual of the app for more information.
6. When it is successfully paired, Jabra Elite Sport announces “Bluetooth Smart Connected”.
7. When you open the third-party app again, Jabra Elite Sport automatically connects with Bluetooth Smart and sends the heart rate data.
