

## Jabra Elite Active 65t - Titanium Black

**The caller hears an echo when they speak. Can I reduce the echo?**

In a true wireless earbud, the microphone is located very close to the speaker. If the EarGel does not create a tight seal between the earbud and your ear, the microphone may pick up the caller's voice from the speaker and cause an echo that only the caller hears.

You can reduce the echo by ensuring a tight seal between the earbud and your ear. We recommend that you try all the EarGel sizes to obtain the best possible fit.
