

Jabra Link 380c UC - USB-C - Bluetooth Adapter

Is the Jabra Link 380 Bluetooth adapter compatible with a desk phone that has USB connectivity?

No, the Jabra Link 380 is built with a different and more advanced technology that is not compatible with most desk phones.

The Jabra Link 380 is engineered to ensure performance with other systems in wireless connectivity, USB-C connectivity, security and longer range, as well as to prepare for more advanced functionality with future products.
