

Jabra Link 260 USB Adapter

How do I set up Push-to-Talk on my Jabra Link 260?

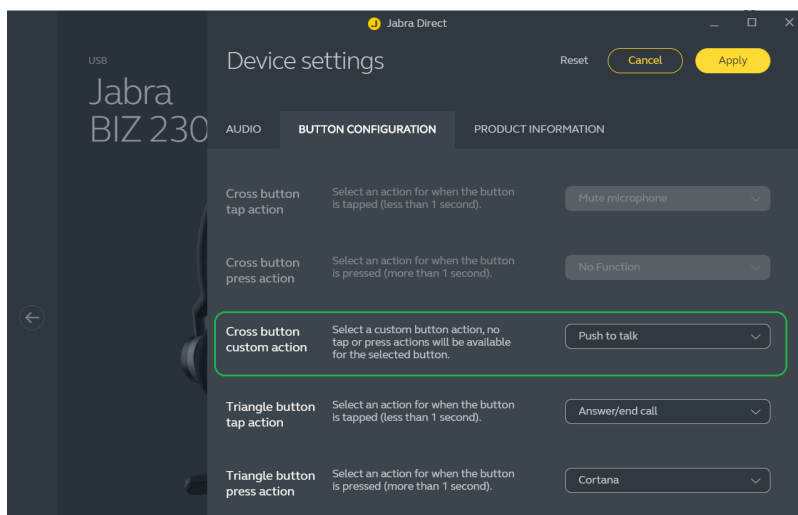

Prerequisites

- [Jabra Direct - latest version](#)
- [Jabra Link 260 - firmware version 1.6.0](#)

You can apply the Push-to-Talk functionality to any of the three buttons on the USB controller.

To configure a button for Push-to-Talk, follow these steps.

1. Plug your Jabra device into your computer.
2. In Jabra Direct, select your device.
3. Click **Device** > **Button configuration**.
4. Go to the custom action for the button you want to apply the Push-to-Talk functionality to, for example the Cross button custom action, and select **Push to talk**.

5. Click **Apply** to save your changes.

Note

When you apply a custom action to a button on the controller, the 'tap' and 'press' actions for the button are no longer available.
