

Jabra Stealth UC (MS)

How do I exit Power Nap mode?

Power Nap turns on automatically if the headset is turned on but has not been used or paired for 1 hour. If the headset is in Power Nap mode for 24 hours, the headset will automatically turn off to save battery capacity.

To exit Power Nap mode, tap the **Multi-function** button or the **Answer/end** button. The headset will confirm by announcing "power on".

To answer a call when the headset is in Power Nap mode, tap the **Multi-function** button. The headset will exit Power Nap mode and answer the call.
