

Jabra Halo Fusion

Can I use my new Jabra Bluetooth device with other devices that have older Bluetooth versions?

A Jabra Bluetooth device is fully backward compatible with other Bluetooth devices that have Bluetooth version 2.0 or later, with headset profile (HSP) version 1.2 or later and hands-free profile (HFP) version 1.5 or later.

Note:

- Bluetooth version 2.0 was released in 2004.
- HSP version 1.2 was released in 2008.
- HFP version 1.5 was released in 2005.
