

# Jabra Link 370 USB adapter MS

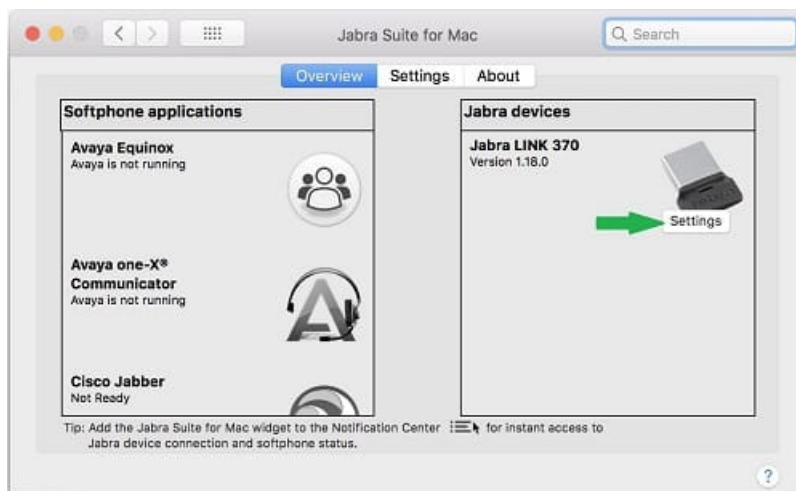

## How do I pair my Jabra headset with my Jabra Link 370 when using Jabra Suite for Mac?

### Prerequisite

- Jabra Suite for Mac - version 2.9 or later

To pair your Jabra headset with your Jabra Link 370, follow these steps:

1. Ensure the Jabra Link 370 is plugged into the Mac.
2. Open Jabra Suite for Mac.
3. Click **Settings**.

4. Click **Search** to search for a new Jabra headset.

5. When the search is complete, the **Search Results** display the Jabra headset that is available for connection.

6. Select the Jabra headset and click **Connect**.

7. When the connection is established, the connected device is displayed in **Bluetooth Connections** and in the **Overview**.
