

Jabra Elite 85h - Titanium Black

How do I turn on/off Active Noise Cancellation (ANC) on my Jabra Elite 85h headphones?

You can turn on/off ANC on the headphones and also using the Jabra Sound+ app.

To turn on/off ANC using Jabra Sound+, follow these steps.

1. In Jabra Sound+, select the Moment you want to customize. Moments in Jabra Sound+ are customized independently from one another. If you select a different Moment, you may need to repeat these steps.
2. In **Sound Modes**, change the setting according to your personal preferences.

To manually turn on/off ANC, press the **Sound Modes** button on the left earcup to cycle through these options: Active Noise Cancellation (ANC) on, ANC off, and HearThrough on.

Manual selection will temporarily overrule—but not change—the ANC setting in Jabra Sound+.

Don't have Jabra Sound+ yet? You can download it from [Google Play](#) on your Android device and from the [App Store](#) on your iOS device.
