

Jabra Halo Free

How do I reset my Jabra Halo Free?

When you reset your Jabra Halo Free, the list of devices that have been paired with it is cleared. Follow these steps to reset:

1. Turn on your Jabra Halo Free.
2. Simultaneously press and hold (5 seconds) the **Volume up** button and the **Multi-function** button.

3. Turn off your Jabra Halo Free.
4. Turn on your Jabra Halo Free and it will be ready to pair again.

Note: When your Jabra Halo Free has been reset, you will need to re-pair it with your mobile phone. Remember to delete the previous pairing before you re-pair.

Also, resetting does not reset the on/off status of the voice guidance.
