

How do I reset my Jabra Freeway?

When you reset your Jabra Freeway, the list of devices that have been paired with it is cleared. Follow these steps to reset:

1. Turn on the Jabra Freeway by switching the **On/off** switch to the “on” position.
2. Simultaneously press and hold (5 seconds) the **Answer/end, Voice,** and **Mute** buttons until you hear a beep tone.

3. The Jabra Freeway is now reset and is ready to pair again.

Note: When your Jabra Freeway has been reset, you will need to re-pair it with your mobile phone. Remember to delete the previous pairing before you re-pair.
