

Jabra GN9125 Flex NC With GN1000 Remote Handset Lifter

How do I configure my Alcatel phone to use with my Jabra Link 14201-37?

Prerequisites

- Jabra Link 14201-37

Compatible Jabra headsets

- Jabra Engage 65/75
- Jabra Engage 45 SE/65 SE/75 SE
- Jabra Pro 920/925
- Jabra Link 950
- Jabra Pro 9400 series
- Jabra Motion Office
- Jabra Go 6470
- Jabra GN9120/9125

Compatible Alcatel-Lucent desk phones

- Alcatel 8019s
- Alcatel 8029s
- Alcatel 8039s

Ringtone signal/phone settings

Select the ringtone from **Menu**,

Settings, Ringtone, Internal/External. Note that the ringtone signal on the headset is transferred only if one of the following ringtones is selected: **Standard, Classic, Cold River, or Dooing-Dooing**.

If you have set the correct ringtone and you still do not have a ringtone

signal, check the following

settings: **Menu, Settings, Phone, Internal/External, Additional options.**

Set **No tone, Progressive,** and **Beeps** to **OFF.**

To connect and transfer calls while using your headset, use these steps.

1. Dial the phone number.
2. "Transfer" will now appear on the phone display.
3. Press the associated function button next to the phone display.
4. End the conversation using the **Headset** button.
