

Jabra Biz 2300 USB MS Mono

How do I use my Microsoft Teams certified device to interact with Microsoft Teams?

Prerequisites

- Connection to a Jabra MS variant that is certified for use with Microsoft Teams
- [Microsoft Teams for computers](#)

When you are connected to your Jabra device and you sign into Microsoft Teams, you can interact with Microsoft Teams on your computer in the following ways.

- If the Microsoft Teams window is minimized, press the **Multi-function** button on the controller to bring the window to the foreground on your computer.
- A Microsoft Teams LED notification will flash on the controller when a scheduled Microsoft Teams meeting begins. Press the **Multi-function** button on the controller to go to the pre-join screen and preview your settings. Press the **Multi-function** button again to join the meeting.
- To raise your hand, hold the **Multi-function** button down for a couple of seconds. If your hand is already raised, holding down the **Multi-function** button will lower it.
