

Jabra Speak 710 UC

Can multiple users share the same Jabra speakerphone?

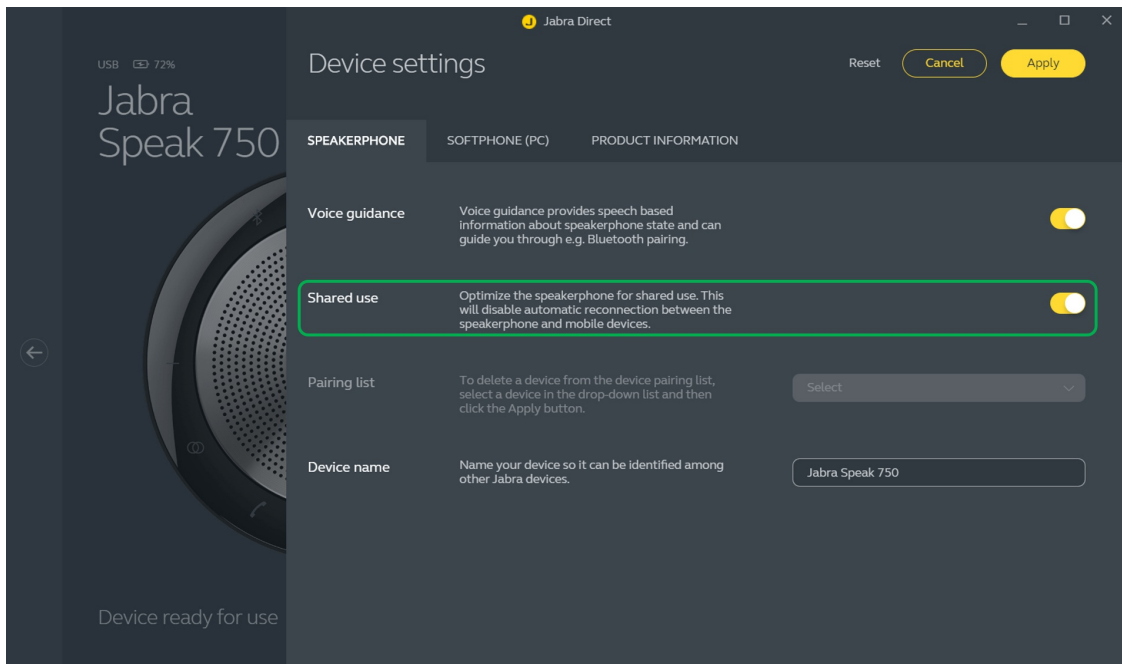

Prerequisites

- [Jabra Direct - latest version](#)

Yes, multiple users can share the same Jabra speakerphone. When sharing, consider using shared use mode, so the speakerphone does not automatically reconnect to a previously paired smartphone or Jabra Link Bluetooth adapter.

To turn on shared use, follow these steps.

1. In Jabra Direct, select the speakerphone.
2. Click **Device**.
3. In **Device settings** > **Speakerphone** > **Shared use**, click the slider to turn the setting on/off.

4. Click **Apply**.

When using shared use mode, you must manually re-pair Bluetooth devices with the Jabra speakerphone each time you use it. To re-pair, press the **Bluetooth** button on the speakerphone and follow the voice-guided instructions.
