

Jabra Elite Sport (Lime Green Grey)

How do I change the voice guidance language using Jabra Sport Life?

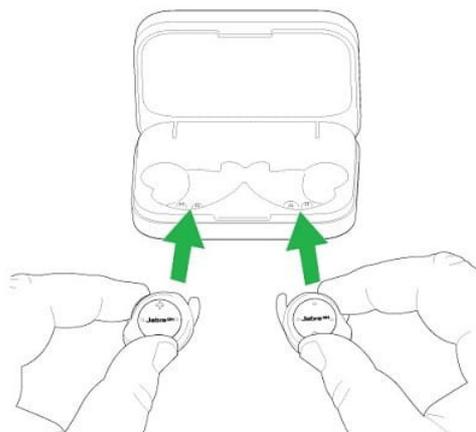

Prerequisites

- [Jabra Sport Life - Android](#)
- [Jabra Sport Life - iOS](#)

To change the voice guidance language on your Jabra Elite Sport, follow these steps.

1. Connect the charging case to a USB power supply and remove the earbuds from the charging case.
2. Make sure your earbuds are paired with your smartphone.
3. Open Jabra Sport Life.
4. Tap **Settings, Headphone settings, Language**, and then select your preferred language.
5. While the update is downloading, you can continue to use the earbuds.
6. When the update has downloaded, you will be notified to install the language.
7. Follow the onscreen instructions.
8. Place the earbuds in the charging case when you are instructed to do so, and then close the lid.

When the update is installing, the LED on the charging case will flash purple. DO NOT open the lid until the LED has stopped flashing. It may take up to 10 minutes.

**Note:**

Changing the voice guidance language also changes the voice commands language.

Changing the language used in the earbuds does not change the language used in Jabra Sport Life.
