

Jabra Elite Sport (Upgrade)

How do I clean my foam tip EarGels?

Washing the foam tips will have a positive effect on their lifespan. You can use a plain cotton washcloth dampened with water. Wipe the tips clean and let them air dry completely before their next use. Allow up to 24 hours of drying time.

Never use soap or alcohol-based cleaning solutions. Do not handle the tips immediately after applying hand sanitizers, lotions, or sunscreen.

In addition, we advise general common-sense care and hygiene for your device. For example, store them in the Jabra Elite case, and avoid excessive heat or cold.
