# Jabra Elite Sport (Upgrade)

How do I reset my Jabra Elite Sport?

When you reset your Jabra Elite Sport, the list of devices that have been paired with it is cleared. Use the following steps to reset:

1. Turn on your Jabra Elite Sport.
2. On the right earbud, simultaneously press and hold (5 seconds) the **Multi-function** button and the **Sports** button until the LED flashes pink.

3. Your Jabra Elite Sport is now reset, and goes directly into pairing mode.
4. Turn on Bluetooth on your smartphone, and select Jabra Sport Elite. Enter "0000" (4 zeros) if you are asked for a pin code.

Note: When your Jabra Elite Sport has been reset, you will need to re-pair it with your smartphone. Remember to delete the previous pairing before you re-pair.
