

Jabra Evolve 20SE MS Stereo

How do I set up my Jabra device to hear music from the computer?

To use your Jabra device to hear music from the computer, you may need to set your Jabra device as the default audio device on your Windows computer.

To manually set your Jabra device as the default audio device, follow these steps.

1. Open the Sound settings on your computer. For example, in the taskbar, right-click the **Sound** icon, and then click **Sound settings**.

2. In the **Output** and **Input** sections, select your Jabra device from the drop-down lists.

If you are using a Jabra wireless device with a connected Bluetooth adapter, select the connected Bluetooth Link adapter.
