

## Jabra Elite Active 65t - Copper Blue

### Why do my Jabra earbuds keep disconnecting when connected to both my iPhone and Apple Watch?

Your Jabra earbuds support Bluetooth connectivity with two devices simultaneously. However, if the connected devices are an iPhone and an Apple Watch Series 3, the connection becomes unstable and will disconnect and reconnect continually. This behavior is caused by the operating systems of the iPhone and Apple Watch – not by your Jabra device. From the Apple point of view, there is no need for earbuds to be connected to two devices simultaneously. So multiple connections (such as earbuds connected to iPhone and Apple Watch simultaneously) are not supported by Apple.

As this is the intended behavior of these Apple devices, we suggest you refer to Apple support.
