

Jabra Sound+

How do I save or delete a custom music preset in Jabra Sound+?

Prerequisites

- [Jabra Sound+ - Android](#)
- [Jabra Sound+ - iOS](#)

To save a custom music preset, follow these steps.

1. Open the Jabra Sound+ app.
2. In **Music presets**, tap the plus icon on the right.
3. Adjust the equalizer and tap the **Save** button below the equalizer.
4. Give the preset a unique name and tap **Submit**. The preset will now appear in the Music presets section.

To delete a custom music preset, follow these steps.

1. In **Music presets**, tap the plus icon on the right.
2. Select the custom preset you wish to delete and then tap the delete button that appears below the equalizer.

Note

Custom presets are only available for the Jabra device that is connected when saving presets. Disconnecting or resetting your Jabra device will not delete custom presets.
