

# Jabra Engage Link – USB-A UC

## How do I connect my Jabra Engage 50 headset to a computer using the Jabra Engage Link?

To connect your Jabra Engage 50 to a computer, plug the headset into the Jabra Engage Link controller (an optional accessory). Depending on the variant you use, the Jabra Engage Link connects to either a USB-A or USB-C port on the computer. The Jabra Engage Link enables call control between the headset and a softphone client.

\*requires Jabra Direct. Download at [jabra.com/direct](http://jabra.com/direct).

\*\*requires Microsoft Teams Variant

**Note**

Make sure to set the headset as the default audio device for the speaker and microphone in the audio settings of the softphone client, such as Microsoft Teams.
