# Jabra Engage Link – USB-A MS

How do I connect my Jabra Engage 50 headset to a computer using the Jabra Engage Link?

To connect your Jabra Engage 50 to a computer, plug the headset into the Jabra Engage Link controller (an optional accessory). Depending on the variant you use, the Jabra Engage Link connects to either a USB-A or USB-C port on the computer. The Jabra Engage Link enables call control between the headset and a softphone client.

USB-A | USB-C

*requires Jabra Direct. Download at jabra.com/direct.
**requires Microsoft Teams Variant

Note

Make sure to set the headset as the default audio device for the speaker and microphone in the audio settings of the softphone client, such as Microsoft Teams.
