Jabra Elite 85h - Black

How do I manually reset my Jabra Elite 85h headphones to the default settings?

When you reset your Jabra Elite 85h headphones, previously paired devices and settings will be cleared.

To reset, ensure that the headphones are powered on, and you are not on a call. Then simultaneously press and hold (5 seconds) the **Volume up** button and the **Multi-function** button on the right earcup, until the LED lights purple and you hear an announcement in the headphones.

Note:
After resetting, you will need to re-pair the headphones with your smartphone.
