

Jabra Elite 85h - Copper Black

How do I get the best fit with my Jabra headset/headphones?

To get the best fit, adjust the headband so that the headset/headphones fit your head comfortably.

Note

To ensure you get optimum audio quality and Active Noise Cancellation, check that there is nothing interfering with the acoustic seal of the ear cushions against your head. It is important for audio performance that the ear cushions cover and surround your ears completely.
