

# Jabra Biz 2400 USB Duo MS

## How do I set up my Jabra device to work with Google Hangouts?

Google Hangouts uses the default audio settings of your computer.

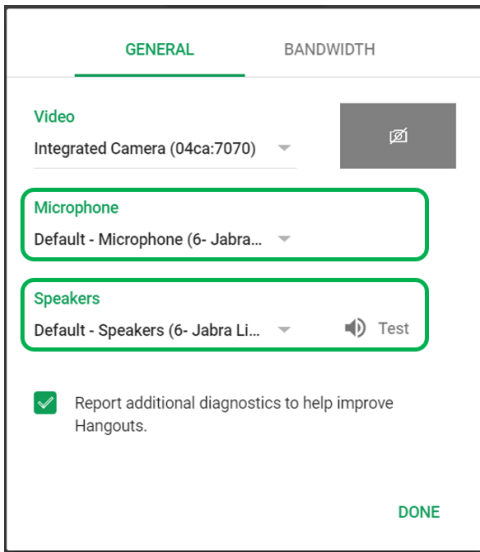

During a video call, you can change the audio devices using the following steps.

1. Click the **Settings** icon on the top right corner of the call window.

2. In **Settings, General**, select your Jabra device under **Microphone** and **Speakers**.

If you are using a Jabra device with a connected Link adapter, select the Link adapter.

**Note**
