

Jabra Elite Active 75t - Copper Black

What do the LEDs on my Jabra Elite 75t/Elite Active 75t mean?

Here is an explanation of the LED colors and behaviors.

Note:

The following explanation is in English. For translated versions check the available languages of the user manual in the **Product documents** section.

Note:

Flashing red after a firmware update indicates the charging case was not updated correctly. We recommend you connect the charging case to a power supply. Then remove the earbuds from the case, replace them in the case, and close the lid. This will complete the firmware update.
