

## Jabra Elite Active 75t Wireless Charging - Navy

**I purchased a new charging case - how do I connect the charging case with the two earbuds?**

Before using a replacement charging case for the first time, you need to sync it with your current earbuds and charge it for 1 hour. To begin syncing, place your current earbuds inside the replacement charging case, and then close the lid. The LED on the charging case may flash purple to indicate that the firmware is being updated. Wait until the LED stops flashing purple before you open the charging case.
