

Jabra Elite 85t - Black

How do I enable Amazon Alexa on my Jabra Elite 85t?

Prerequisite

- [Jabra Elite 85t firmware version 2.0.0 or later](#)
- [Jabra Sound+ - Android](#)
- [Jabra Sound+ - iOS](#)

To enable Amazon Alexa on your Jabra Elite 85t, follow these steps.

1. Update the Jabra Elite 85t firmware to version 2.0.0 or later. This version includes support for Amazon Alexa.
2. Open the Jabra Sound+ app.
3. Go to **Personalization > Customize your headset > Voice Assistant**, and then select Amazon Alexa.

Note

Using Amazon Alexa requires an Amazon account and the installation of the Amazon Alexa app on your mobile device.
