

Jabra Evolve2 30 - USB-A MS Teams stereo

How do I use my Microsoft Teams certified device to interact with Microsoft Teams?

Prerequisites

- Connection to a Jabra MS variant that is certified for use with Microsoft Teams
- [Microsoft Teams for computers](#)

When you are connected to your Jabra device and you sign into Microsoft Teams, you can interact with Microsoft Teams on your computer in the following ways.

- If the Microsoft Teams window is minimized, press the **Microsoft Teams** button to bring the window to the foreground on your computer.
- A Microsoft Teams LED notification will flash when a scheduled Microsoft Teams meeting becomes active (when another participant joins the meeting). Press the **Microsoft Teams** button to join the active meeting on your computer.
- Raise or lower your hand during a Microsoft Teams meeting by pressing and holding (1 sec) the **Microsoft Teams** button on the Jabra device.

Note

The Microsoft Teams LED notifications will flash in response to only one Microsoft Teams notification at a time. Pressing the **Microsoft Teams** button will interact with the last received notification.
