

Jabra Evolve 75 SE - MS Stereo

How do I charge my Jabra Evolve 75?

There are two ways to charge your headset.

Use the USB charging cable

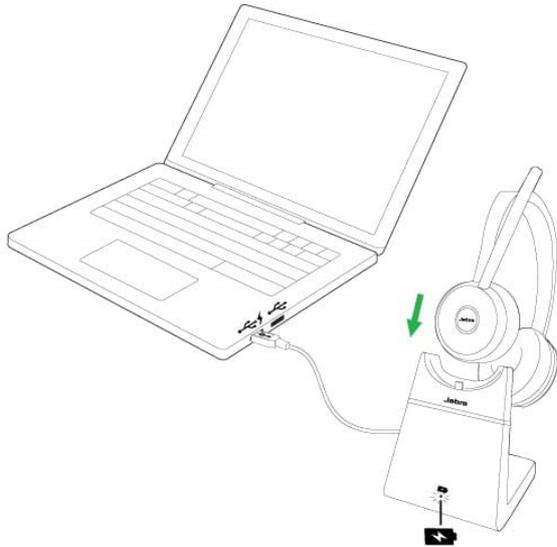

Plug the supplied USB charging cable into a USB port on your computer, docking station, or wall charger.

Use the charging stand*

If your headset comes with a charging stand, plug it into a powered USB port on your computer, docking station, or wall charger. Then dock the headset.

*The charging stand is included with some variants of the Jabra Evolve 75. For variants that do not include the charging stand, it is available as an optional accessory.

**Note**

It takes approximately 3 hours to fully charge the headset.

To learn the battery status, press the **Volume up** or **Volume down** button when not on a call or listening to music. The LED indicator on the headset also shows the battery status.
