

Jabra Engage 50 II - (Engage 50 II Link) USB-C MS Stereo

How do I use the Jabra Engage 50 II Link?

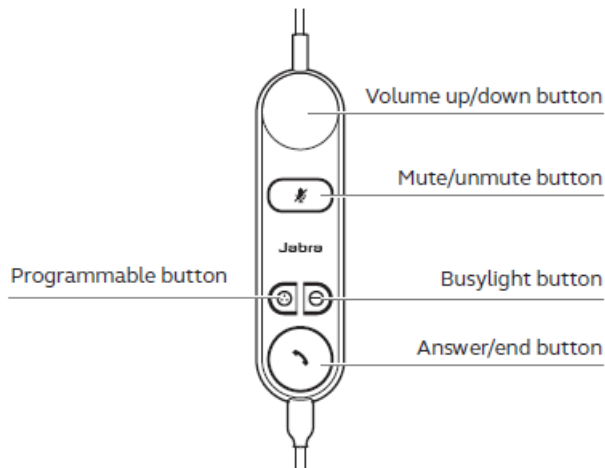

The following overview shows how to use the Jabra Engage 50 II Link controller.

The overview is in English. For versions in other languages, refer to the translated user manual in the **Product documents** section on the product support page.

Microsoft Teams variant

UC variant

Note

The headset itself does not have call controls. If you are using the Jabra Engage 50 II headset connected directly to a computer, use the audio controls on the computer.

You can configure the button controls for the **Mute/unmute**, **Programmable**, **Busylight**, and **Answer/end call** buttons using Jabra Direct or a Jabra SDK integration.
