

Jabra PanaCast 50 Video Bar System MS

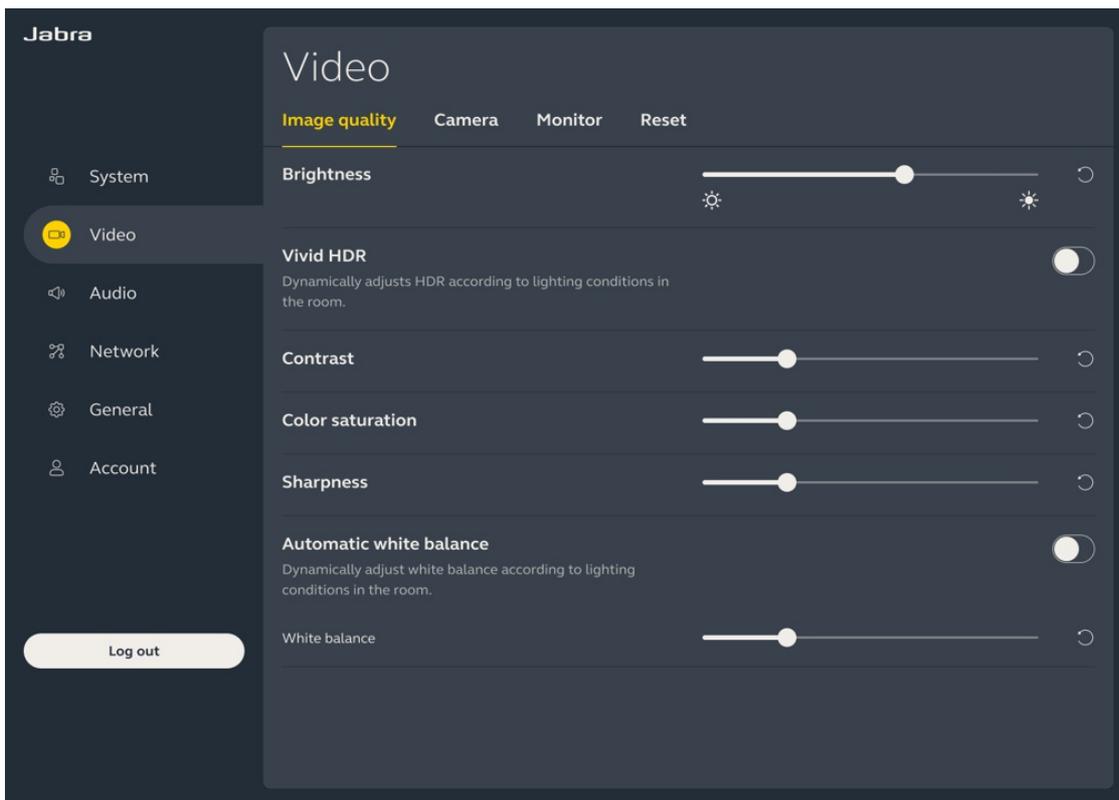

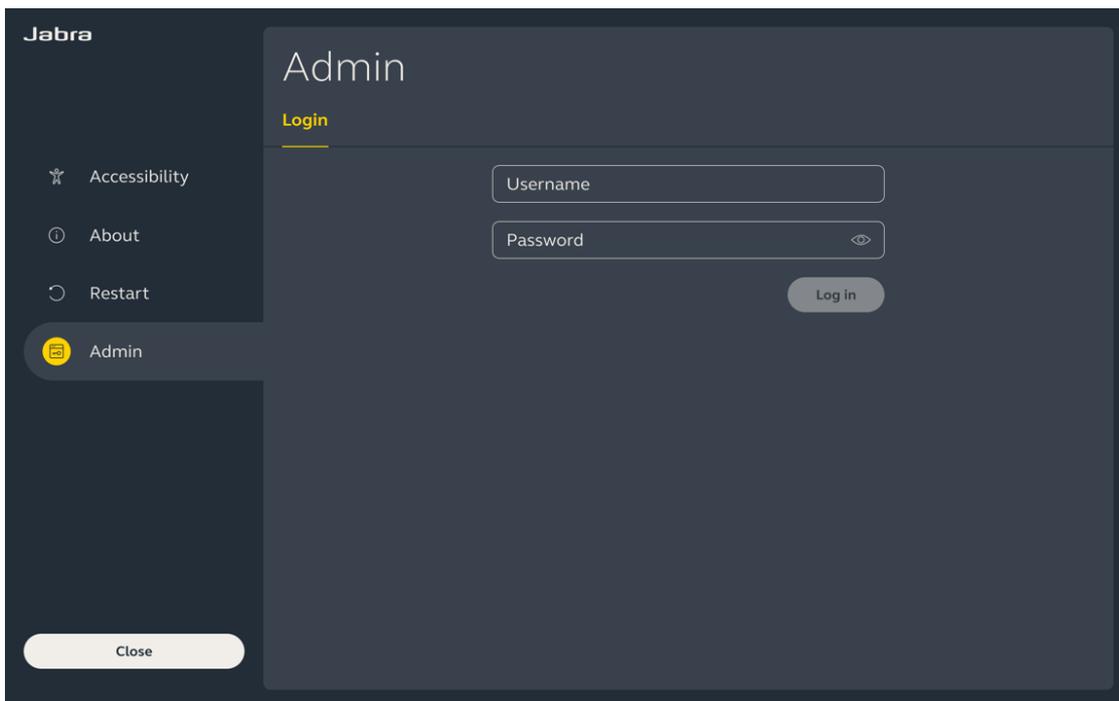

How do I manage the settings for the Jabra PanaCast 50 VBS?

After the configuration process for the Jabra PanaCast 50 VBS is completed, the touch controller will display the video conferencing app of your service provider. To access the video bar settings, go to **More**, select **Settings** and then **Device settings**.

Basic end-user settings are available, and general information is displayed.

Advanced settings, including all video settings, are available when logging in as an administrator. If this is the first login, the default username is *admin* and the password is the *last 6 digits of the touch controller serial number*.

Note

You can also configure and remotely manage all settings for the Jabra PanaCast 50 VBS using the Web Console.

To access the Web Console, enter the IP address of the video bar or

touch controller in a browser. The IP address is displayed on the installation screen during the configuration process of the Jabra PanaCast 50 VBS. The IP address is also available on the touch controller in **Device settings, About**.

If this is the first time accessing the Web Console, the default username is *admin* and the password is the *last 6 digits of the serial number of the device that was used to access the Web Console*.
