

Jabra PanaCast 50 Video Bar System MS

What is the recommended height for installing the Jabra PanaCast 50 VBS?

It is recommended to install the video bar at the eye-level of the meeting room participants.

When installing the video bar with the wall mount or screen mount, the camera should be positioned 5 centimeters (2 inches) below the screen and ideally, 30-35 centimeters (12-14 inches) above the table top or 100 centimeters (3 feet) from the floor. If this height is not possible, it is recommended to install the video bar above the screen.

Do not mount the camera facing direct sunlight as this may affect the preset white balance and compromise the image.
