

# Jabra Elite 10 Gen 2 - Titanium Black

## How do I get the best fit with my Jabra earbuds?

Insert the earbuds into your ears. Ensure the microphones are pointed towards your mouth.

To improve the fit, try your earbud with each of the different EarGel sizes that comes with your earbud. The fit should feel light and comfortable.

### Note

A good fit is important for obtaining a good audio experience and Active Noise Cancellation (ANC).

Your earbud comes with EarGels in four sizes. The medium EarGels are pre-mounted on the earbuds.

To change the EarGel, ensure the mounting tip on the earbud is aligned with the attachment on the EarGel. Press the EarGel firmly onto the earbud. To confirm the EarGel is attached correctly, refer to the following images.
