

Jabra Motion UC

How do I use voice commands with my Jabra Motion?

To use voice commands when you are not on a call, tap the **Voice and Mute microphone** button until you hear "say a command".

You can use the following voice commands with the Jabra Motion:

"What can I say"?	Hear a list of all voice commands
"Answer"	Answer an incoming call
"Ignore"	Reject an incoming call
"Pair new device"	Enter pairing mode to begin pairing with a new mobile device
"Redial"	Redial the last number that was dialed

"Call back"	Dial the phone number that last called you
"Battery"	Hear the current status of the battery level
"Cancel"	Cancel current voice command
"Phone commands"	Turn on the phone commands of the paired device (for example, Siri)
