

Jabra Pro 920 Mono

How to connect my Jabra Pro 920 with Avaya 1408, 1416, 1608, 1616, 9404, 9408, 9504, 9508, 9608, 9610, 9611G, 9620, 9620C, 9620L, 9621G, 9630, 9630G, 9640C, 9640G, 9641G, 9650, 9650C, 9670

Prerequisite:

Jabra Pro 920 + Jabra Link 14201-20

In combination with one of the following Avaya phones:

- 1408 / 1416
- 1608 / 1616
- 9404 / 9408
- 9504 / 9508
- 9608 / 9610 / 9611G / 9620 / 9620C / 9620L / 9621G
- 909630 / 9630G / 9640C / 9640G / 9641G / 9650 / 9650C / 9670

Connection:

1. Take the supplied connection cable and insert it into the socket marked "phone" on your Jabra Pro 920 base and the other end into the socket of the EHS adapter marked with a "phone" symbol.
2. Now connect the end of the cable marked red with the socket of the EHS adapter marked with "AUX" and the socket of your Jabra Pro 920 base marked with "AUX".
3. Now connect the white cable marked with "C" to the socket of the EHS adapter marked with "Handset / Headset" and the "headset" socket of your phone.

Important: For 1408/1416 and 9404/9408 phones the cable marked white with "A" must be used (instead of the "C" cable).

4. Connect the dial tone sensor with the EHS adapter and attach it to

the center of the phone speaker.

Please note that full functionality is only available when all the color-marked parts of the cables are inserted into the EHS adapter, see photo.

Now you can setup the headset for your phone with the automatic or manual configuration.

Automatic configuration:

To start the automatic configuration, please let someone call you on this phone; wait at least 10 seconds before you pick up the phone. Now the appropriate EHS mode should be set up.

If the automatic configuration does not work, please manually select the DHSG mode. (See manual)

Base setup:

Set the phone setup switch to position "A".

Microphone level setting:

Put on the headset and call a colleague, for example. Now you can select the desired microphone volume using the +/- button.
