# Jabra Boost

How do I reset my Jabra Boost?

When you reset your Jabra Boost, the list of devices that have been paired with it is cleared. Follow these steps to reset:

1. Turn on your Jabra Boost by setting the **On/off** switch to the "on" position.
2. Simultaneously press and hold (5 seconds) the **Volume up** button and the **Multi-function** button until the battery and Bluetooth indicators flash.

3. Turn off the Jabra Boost by setting the **On/off** switch to the "off" position.
4. Your Jabra Boost is now reset. When you turn it on again, it will be ready to pair.

Note: When your Jabra Boost has been reset, you will need to re-pair it with your mobile phone. Remember to delete the previous pairing before you re-pair.
