

# Jabra Extreme

## How do I reset my Jabra Extreme?

When you reset your Jabra Extreme, the list of devices that have been paired with it is cleared. Follow these steps to reset:

1. Turn on your Jabra Extreme by switching the **On/off** switch to the “on” position.
2. Simultaneously press and hold (8 seconds) the **Answer/end** button, **Volume up** button, and **Volume down** button until the light turns solid.
3. Your Jabra Extreme is now reset. It will reboot automatically after approximately 10 seconds and be ready to pair again.

Note: When your Jabra Extreme has been reset, you will need to re-pair with your mobile phone. Remember to delete the previous pairing before you re-pair.
